Rudy Koenig has nearly 30 years experience in global clean energy markets.

He serves as advisor and interim manager to international investors and suppliers: supporting corporate strategy and business development; structuring complex business transactions (projects, bids, procurement, due diligence); designing corporate governance for new enterprises; managing lean business operations.

Mr. Koenig has held executive offices in Germany and the United States, at engineering, manufacturing, and service companies in the nuclear and renewables sector as well as with a large utility/investor. His nuclear experience spans the front- and backend of the fuel cycle, new build, and decommissioning and remediation. From 2007-2012 he was key in developing and implementing RWE's nuclear newbuild program and – ultimately – selling the projects and developing RWE's nuclear O&M consultancy. In 2011-2012 he also served as Chairman of the FORATOM New Build Task Force.

Functions he has held include: Managing Director of NRW Pellets GmbH (an integrated biomass CHP and pellet production); Head of International Nuclear Development at RWE Power AG and RWE Technology GmbH as well as Alternate Executive Director at Horizon Nuclear Power Ltd. (UK); CFO of AZUR SPACE Solar Power GmbH; Business Unit Head for RWE's key account energy supplies (30 TWh power and 15 TWh gas sales); Senior M&A Manager at RWE Solutions AG; Managing Director of GNB mbH (design, license, manufacture spent fuel storage and transport solutions); President & CEO of NUKEM NT Corp. in South Carolina/U.S.A. (waste management, decommissioning, remediation); Head of Trading and Commodity Finance in the NUKEM Group.

As an Executive, Rudy Koenig applies an objectives oriented, mentoring leadership style and encourages diversity. He particularly enjoys developing and working with multidiscipline, multi-cultural teams and stakeholders. He has extensive experience building bridges in Anglo-German business settings.

Mr. Koenig has a graduate degree in business administration from the University of Cologne/Germany, including research and study programs at PennState and NYU Stern School of Business in the United States. Besides speaking fluent English and German, he is proficient in French.
